

Accelerate
newcomer
academic
success using
real-world media
to develop
language and
literacy

Unlock thousands of curated videos and speaking assessments that complement Listenwise lessons, providing the differentiation needed to support a diverse student population.

ELA

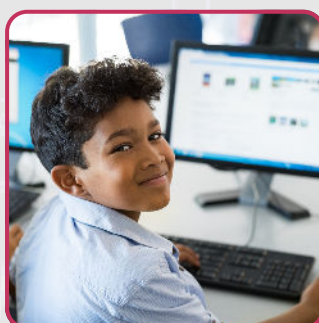

Social Studies

STEM

Both Listenwise and
Lingolift are designed to
support repeated exposure
to content and language.

Before: Building
background knowledge
During: Providing
learning supports
After: Deepen learning
across language domains

Lingolift **NEW**

- Designed for newcomers and emergent MLs (ELP 1-2) in grades 2-12.
- Uses short, curated educational video lessons and a scaffolded **Watch-Learn-Speak** instructional sequence.

 Listenwise

ELD Lesson Library

- Designed for English learners in grades 2-12, from emergent to intermediate (ELP 1-3).
- Uses authentic podcasts and videos to teach academic content and language together across the curriculum.

 Listenwise

Gen Ed Lessons

- Designed for reclassified and native English speakers (ELP 4-6) in grades 2-12.
- Uses curriculum-aligned, high-interest podcasts to engage students across curricula.

Bundle Lingolift and Listenwise together –

Get powerful yet flexible tools for
English learners at every level

sales@listenwise.com | listenwise.com

Watch, Learn, Speak

Build foundational survival, social and academic language across language and literacy domains: listening, speaking, reading, and writing.

Includes:

- State and ELD standards alignment
- Interactive language supports
- Assessments
- Teacher's guides

Around and Around
The moon goes around the Earth, which goes around the sun, which goes around the galaxy!

ELP 3 Intermediate Science Astronomy Space Physical Science

Great job!
You spoke 5 lines. Overall grade: B+

83 It takes the moon 27 days to go around the Earth.
86 That is a fraction of a year.
100 That is one full year.
75 The sun goes around the center of the galaxy.
86 That is too many years to imagine.

Bigger and Bigger
Where is the bigger object in our solar system?

2 **Mars**
There are many things to learn about the planet Mars.

3 **Around and Around**
The moon goes around the Earth, which goes around the sun, which goes around the galaxy.

4 **What is in Space?**
Extra video: we will learn what people see in the galaxy.

5 **The Planets**
There are eight planets in our solar system.
